EDUCATION

Capital University of Science & Tech.

BS, SoftwareEngineering

Pakistan

2024 – 2028

Punjab Group of Colleges

ICS (IntermediateinComputerScience)

Pakistan

2021 – 2023

SUMMARY

Software Engineering student (6th Semester) at Capital University of Science & Technology (CUST), CGPA 2.8/4.00. Builds scalable software across full-stack web development, AI-integrated applications, game development, and IoT systems.

PROJECTS

<https://github.com/syrusnaseer>

TimeCapsule Application

- Developed a "Time Capsule" application that allows users to store and preserve data (messages, memories, or files) for future access.
- Implemented structured data handling and logical storage techniques to simulate long-term secure data preservation.

Vortex Ranger – 3D Unity Game

- Futuristic 3D action shooter with custom player movement, physics-based collision and animation states.

ESP32 EV Monitoring System

- IoT electric-vehicle monitor with real-time sensor data collection for smart-mobility use cases.

Machine Learning Capstone Project

- Developed an end-to-end machine learning solution using Python and Scikit-learn.
- Trained and evaluated multiple machine learning models using appropriate performance metrics.

SKILLS & LANGUAGES

Technical& Professional Skills:

- Languages: C++, Python, JavaScript, TypeScript, C
- Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3
- . Backend: Node.js, Express.js, REST APIs
- AI / ML: Gemini API, RAG pipelines, LLM integration
- Databases: MongoDB, MySQL, PostgreSQL
- Game Dev / IoT: Unity, C#, ESP32, Arduino, Sensors

Languages:

- Urdu: Native
- English: Proficient
